

# Quark Express 7 PDF Settings

Revised: 04.02.10

- Go to Quark > Preferences...

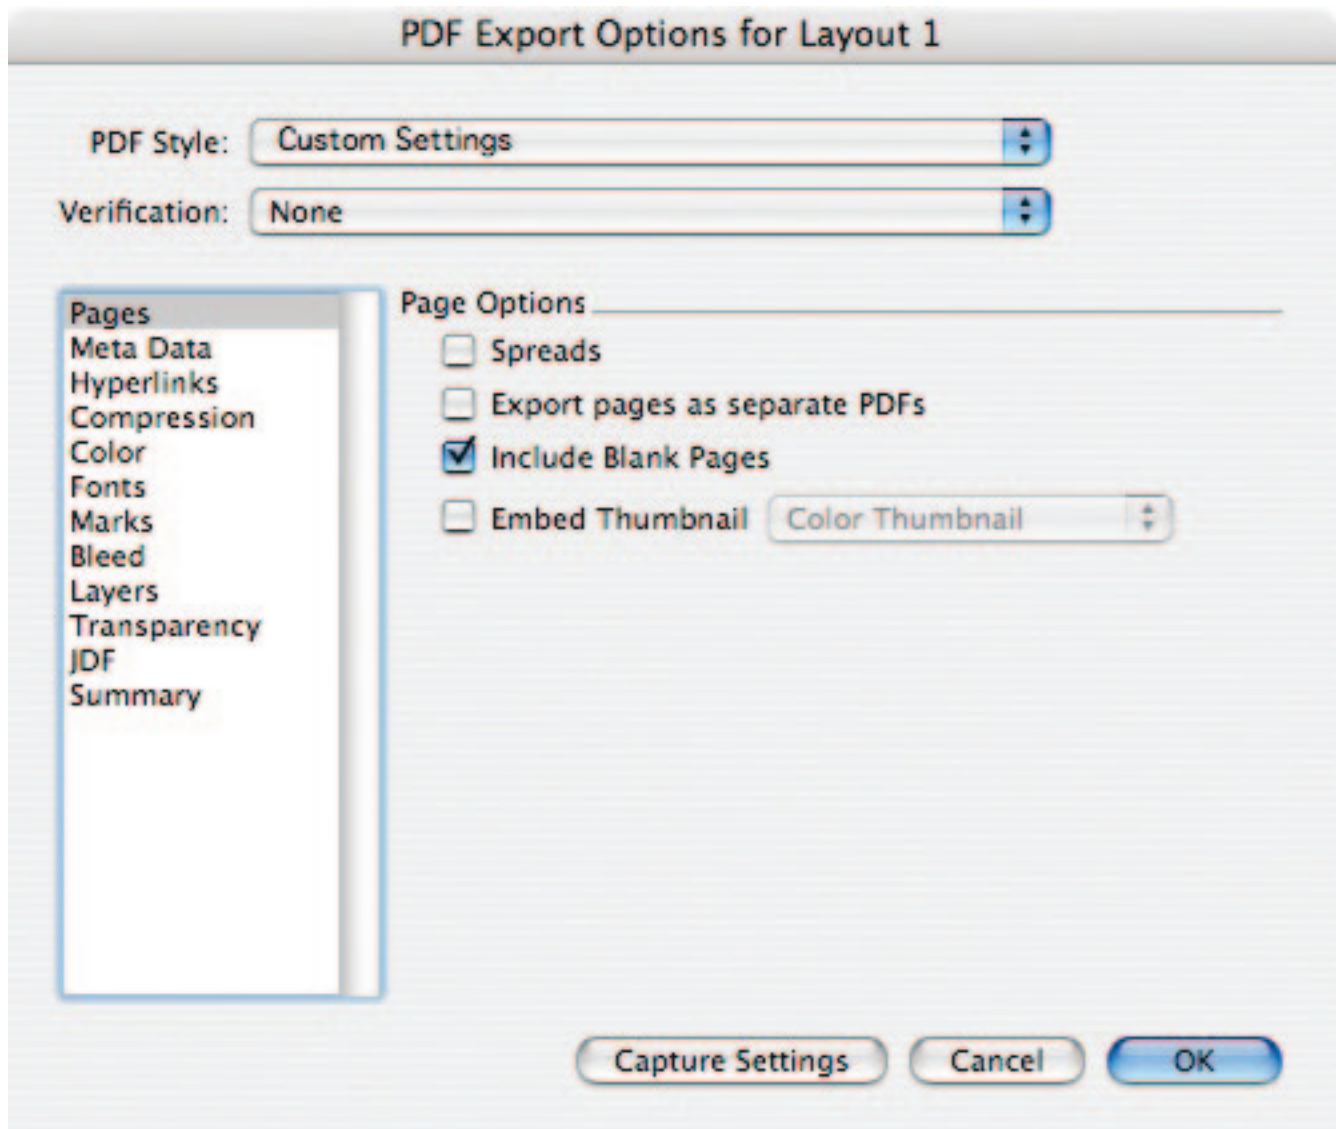

- Check that this dropdown menu is either set to Emulate Legacy (shown) or to Quark 7.0 Default, and that Enable Access to Picture Profiles is unchecked.

If you do not do this, the color of your work will be altered in the PDF. **If you intend to have color altered in this way, you MUST alert our EPP supervisor when sending in files.**

Go to File > Export > Layout as PDF... to export PDF files.

Click on the Options button, and use these settings:

## PDF Export Options for Layout 1
